"A DISTURBING DISCOVERY"

..WE ARE HAVING TO CYCLE BETWEEN ENGINES TO PREVENT THEM FROM BLOCKING WITH PARTICLES AND OVER HEATING..

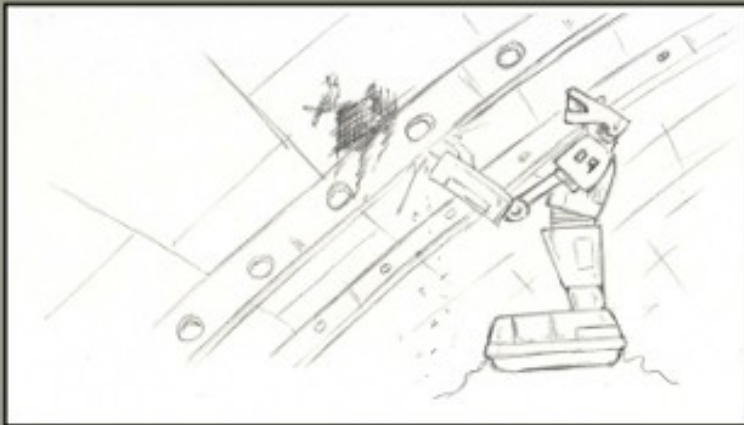

SEARCHING FOR A POSSIBLE HIDDEN PHOTAAH BASE, ANUBIS SLOWLY MAKES ITS WAY THROUGH THE DELTA SECTION OF THE GHOST NEBULA. IN COMMAND OF THE SHIP, CAPTAIN ALEXANDER MAKES AN ENTRY TO HIS LOG...

THE NEBULAS THICK AND CHARGED GASSES PREVENT US FROM GOING ANY FASTER..

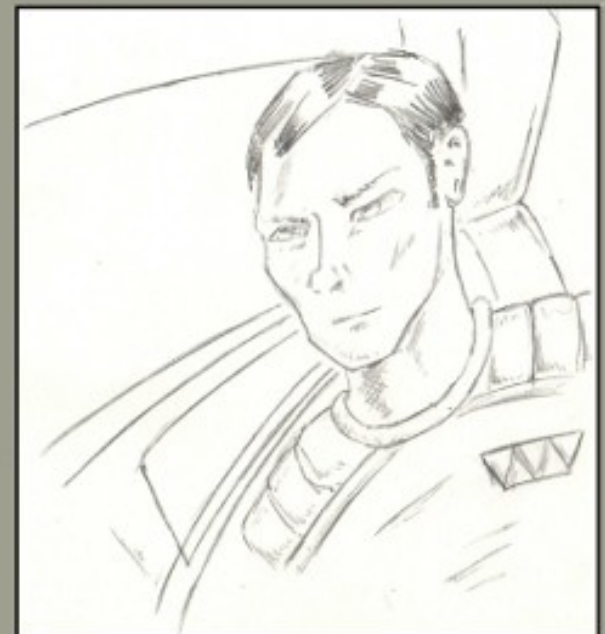

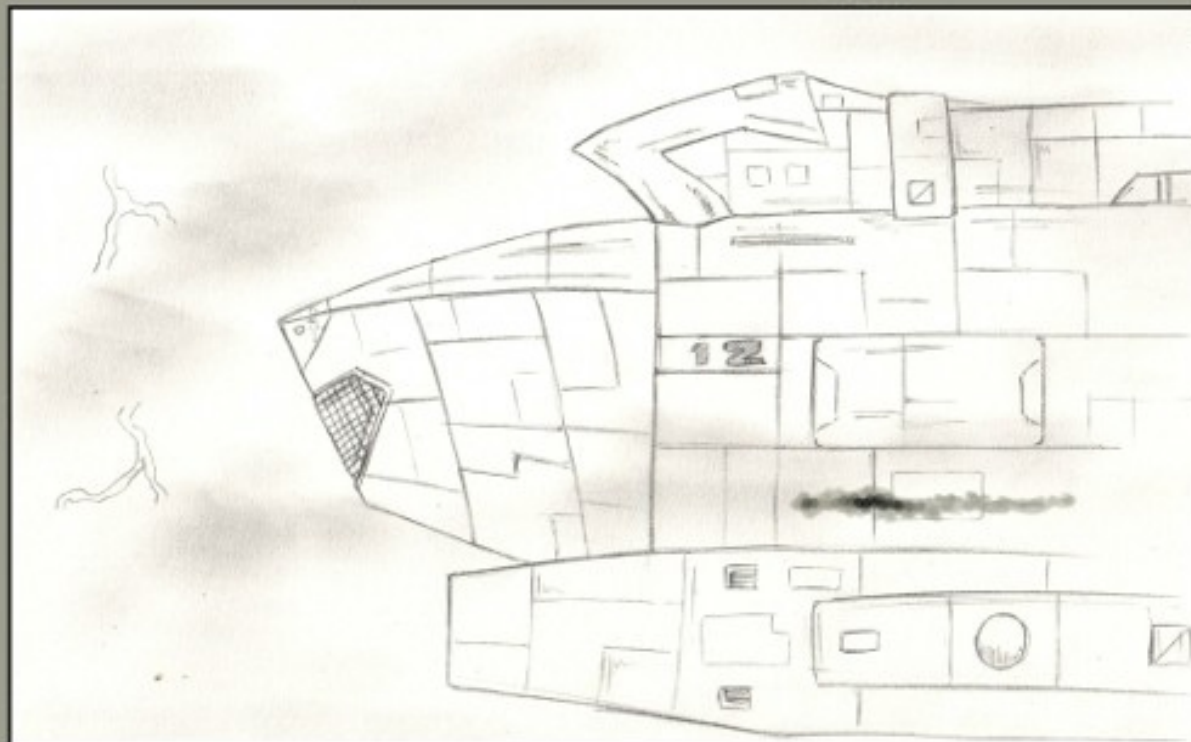

..AND NAVIGATION IS DIFFICULT AS WE TRY TO MAP THE PHOTAAH SHIP'S TRAJECTORY.

AT LEAST THE SLOW PROGRESS HAS GIVEN US TIME TO AFFECT SOME REPAIRS... REPAIRS THAT WERE INTERRUPTED BY THE PHOTAAH ATTACK ON THE SHIP.

THE CREW ARE TENSE AND I MUST ADMIT TO FEELING LINEASY...

SIR! IM DETECTING
MULTIPLE ENERGY
READINGS CONSISTENT
WITH PHOTAAH!

OUR LONG RANGE
SENSORS PICKED THEM
UP BUT I RECOMMEND
WE GO TO PASSIVE
SCAN TO AVOID
DETECTION... AND STOP
HERE AS WELL!

FULL STOP IS ORDERED AND 200,000
TONS OF CRUISER COME TO A STOP IN
THE GAS...

ANUBIS'S SENSORS ARE MORE POWERFUL THAN THE PHOTAAH, AND
UNTIL THE CREW KNOW HOW MANY PHOTAAH SHIPS THEY ARE UP
AGAINST, THE DECISION IS MADE TO STAY OUT OF RANGE AND USE
PASSIVE SCAN ONLY.

SO AS TO INVESTIGATE FURTHER, A NEW EXPERIMENTAL STEALTH
SHUTTLE IS PREPARED FOR USE...

WITH ANNA AND DANICA ABOARD, THE STEALTH SHUTTLE LEAVES ANUBIS'S HANGAR DECK AND MAKES ITS WAY INTO THE NEBULA TO INVESTIGATE THE SENSOR READINGS

IN THE STEALTH SHUTTLE, THEY USE PASSIVE
SCANNING TO CAREFULLY TRACK THE ENERGY
SIGNALS

THE PHOTAAH ENERGY
READINGS ARE GETTING
STRONGER.. WE'RE
CLOSING IN...

I THINK I CAN
SEE SOMETHING
UP AHEAD, THROUGH
THE GAS..

WHAT
THE
HELL?!

A MASSIVE PHOTAAH TASK FORCE!!

END OF SERIES 2 - SERIES 3 STARTS 21ST SEPT 2015.
IN THE MEANTIME LOOK OUT FOR MONTHLY UPDATES
INCLUDING NEW CHARACTER PROFILES AS WELL AS
SPACECRAFT TECHNICAL NOTES.
